YepPBX

YepTelcoSoft

HOSTED PBX PLATFORM · DATASHEET

Sell business phone service under your own brand.

YepPBX gives every business you serve its own phone system: extensions for the team, phone numbers, voicemail and a record of every call. Your customers see your name and logo, call from a desk phone, the mobile app or the browser, and their calls go out through your carriers. You run one platform for all of them.

CAPABILITIES

- One platform for every business you serve
- Your name, logo and colours on the customer portal
- Businesses sign up, invite their team and choose a number
- Greetings, opening hours, menus, ring groups and queues
- Desk phones, a mobile app and calling from the browser
- Voicemail in the portal and by email, with transcription
- AI receptionists that answer calls
- Calls keep working if a server stops
- New customers verified before calling outside numbers
- Emergency calls always go through
- Live calls and call history, with call quality
- Each business billed separately through YepBoss

TECHNICAL SPECIFICATIONS

Who it is for	Telecom operators and resellers that sell business phone service
Each business gets	Extensions, numbers, menus, queues, voicemail and call history
Your brand	Your name, logo, colours, web address and support contact
